Work Experience

Installco Wify Technology Pvt Ltd

Jr. Software Developer

Mumbai, India

Feb 2024 to May 2025

- Assisted with day-to-day development tasks on a PERN stack (PostgreSQL, Express.js, React, and Node.js) for internal tools and admin dashboards, following guidance from senior developers and team leads.
- Maintained and improved internal tools and admin dashboards under senior mentorship.
- Conducted unit testing in Jest, achieving 80% test coverage during feature development, while adopting Behavior-Driven Development (BDD) practices. Collaborated with senior developers to optimize SQL queries, improving database performance.
- Participated in Agile practices, including daily stand-ups and code reviews.
- Gained hands-on familiarity with tools like Redis (for caching), Postman (for API testing), and Docker (for local development).

Projects

URL Shortener [Link](#)

A modern, full-stack URL shortener application built with React and Node.js. Create short, shareable links with optional custom slugs, user authentication, and a beautiful, responsive interface.

Portfolio Website [Link](#)
