TECH SKILLS

Languages & Frameworks:
JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js

Frontend: Tailwind CSS, Ant Design, Redux Toolkit, TanStack Query

Backend & APIs: REST APIs, JWT, GraphQL, Redis, Prisma ORM

Databases: PostgreSQL, MongoDB

DevOps & Tools: Docker, GitHub Actions, Render, Vercel, Git, GitHub

Testing & Practices: Jest, BDD, Agile

SOFT SKILLS

- Communication
- Problem-solving
- Teamwork
- Creativity
- Attention to detail

EDUCATION

Full Stack Web Development
MASAI SCHOOL, Bengaluru
March 2022 - June 2023

Bachelor of Engineering in
Electronics and
telecommunication engineering
**RAMRAO ADIK INSTITUTE OF
TECHNOLOGY, Navi Mumbai**
July 2018 - June 2022

ADITYA TAMBE

FULL STACK WEB DEVELOPER

PROFESSIONAL SUMMARY

A results-oriented Full Stack Developer with 1.3+ years of experience building scalable web applications using React, Next.js, Node.js, Postgres and MongoDB. Skilled in writing clean, tested code and creating responsive, high-performing interfaces. Experienced in DevOps workflows with Docker and GitHub Actions, ensuring efficient deployment and seamless user experiences.

Work Experience

Installco Wify Technology Pvt Ltd
Jr. Software Developer

Mumbai, India
Feb 2024 to May 2025

- Contributed to PERN-stack internal tools and admin dashboards, implementing new features and resolving bugs under senior developers guidance.
- Designed and maintained unit tests using Jest and BDD-style test cases; helped achieve ~80% test coverage across new features.
- Collaborated with senior engineers to analyze and optimize SQL queries, improving database response times and system performance.
- Integrated Redis caching prototypes to reduce repeated DB load and improve API latency.
- Dockerized local development environments and created onboarding documentation, reducing setup time for new developers.
- Participated in Agile practices including daily stand-ups, sprint planning, and code reviews.

PROJECTS

URL Shortener

A modern, full-stack URL shortener application built with React and Node.js. Create short, shareable links with optional custom slugs, user authentication, and a beautiful, responsive interface.

Features

- Developed a full-featured URL Shortener with secure JWT-based authentication (login/signup)
- Implemented custom short link generation, real-time updates using TanStack Query, and one-click copy functionality.
- Engineered a responsive and interactive UI with smooth animations and engaging user experiences
- Built comprehensive URL management features for users to view, edit, and track their created links

Tech Stack: React 19 | TanStack Query | Redux Toolkit | Tailwind CSS | Node.js | Express.js | MongoDB | JWT

A solo project completed in a span of 3 days.

NextLearn Store – E-Commerce Web App

A modern, full-stack e-commerce application built with Next.js and PostgreSQL, featuring secure JWT authentication, dynamic product management, and a responsive, elegant UI powered by Tailwind CSS and Context API.

Features

- Developed a full-stack e-commerce platform with secure JWT-based authentication and role-based access control.
- Integrated PostgreSQL via Prisma ORM for efficient database modeling and optimized query handling
- Designed a responsive, modern UI using Tailwind CSS and managed global state with Context API
- Implemented dynamic product listings, cart functionality, and order workflows with API route handling in Next.js
- Focused on modular code structure and maintainability to ensure scalability and clean architecture

Tech Stack: React | Next.js | Tailwind CSS | Context API | Node.js | PostgreSQL | Prisma ORM | JWT Authentication

A solo project completed in a span of 5 days.
